## ➤ Continued

A good way to help would be to support our Fundraising Ball. This will be a black tie occasion, and complemented by musical entertainment. We have invited a number of celebrities to join us. During the evening we aim to hold a raffle and auction for some very attractive prizes.

There are a number of options we would very much like you to consider. For example,

- Sponsoring the drinks reception, or table wine for the evening
- Sponsoring the food
- Sponsoring the entertainment
- Sponsoring use of the National Railway Museum
- Providing a generous prize (either for a table raffle or to be bid for through an auction)
- Joining us on the night - tickets are £50 per head (or tables of 10 at £500)

Sponsors will be highlighted in the event programmes and on the night. All who donate prizes will similarly be acknowledged. I hope you will be able to join us for the evening and look forward to hearing from you.

## **Fundraising dinner – help us raise £1million to save a railway**

It's not every day you're asked to help save a bridge, and help save a railway! But that's exactly what we are asking you to do.

We'd like you to get behind the 'Bridge & Wheels' Appeal, by supporting our Fundraising Ball, to be held on Saturday 28 November 2009, at the National Railway Museum, starting with a reception at 7.15pm with carriages at 12.30am.

We're pinning our hopes on all our friends, whether corporate or individual, rallying round. The challenge is to help us to raise **£1 million**. We've started well, but we need to keep going. The truth is, we need help to raise sufficient funds to renew Bridge 30, between Goathland and Grosmont, as well as restore engine 80135, if we are to give a long term future to the North Yorkshire Moors Railway. It really is the biggest challenge the railway has faced in years.
